Proposals of the Health Officer dated 14th June 1946

Subject - Continuance of Cyanogas Establishment during 1946-47

Plague recurs year after year in Bangalore City, commencing from August As a precautionary measure, cyanofumigation is being undertaken as a routine to keep down the rat and flea population A scheme costing Rs 20,275/- was approved by the Council in 1944 but on account of the dearth of hands the full complement could not be entertained A gang consisting of 30 gangmen with one Asst Sanitary Inspector, was however entertained and some additional staff was sanctioned during the height of the epidemic during 1945 to effectively control the spread of plague From the prevailing conditions, it may not be possible to get 90 gangmen So the present establishment with 2 additional Asst Sanitary Inspectors to supervise the work will be entertained from 1-7-1946 Most of the congested areas, Bazaars and Grain Godowns where the rat population is likely to be dense will be tackled and attempts will be made to control as far as possible the spread of the infection

If in-spite of the efforts made, the infection spreads, on account of the low vitality of the people, separate proposal for the entertainment of additional gang will be submitted

The cost of the present proposal is Rs 18,000/- as detailed below -

3 Assistant Sanitary Inspectors on Rs 25+5 C A	Rs 1080/-
30 Gangmen at Rs 15/- each P M	5400/-
Cyanogas dust 5000 lbs at Rs 2-2-0 a lb	10,625/-
Equipment	500/-
Contingencies	250/-
	17,855/- or rounding 18,000/-

The cyanogas gang, during the current year visited 42,321 houses in various divisions, fumigating 4,20,682 burrows 17650 rats and bandicoots were found dead during the process of fumigation

The subject may kindly be placed before the Managing Committee and the Council for sanction
